

ls::Kontener

```
classDiagram
    class ls_Kontener["ls::Kontener"]
    class ls_Kolejka["ls::Kolejka"]
    class ls_Stos["ls::Stos"]
    ls_Kolejka --|> ls_Kontener
    ls_Stos --|> ls_Kontener
```

A UML class diagram illustrating inheritance. At the top is a box labeled 'ls::Kontener'. Below it are two boxes, 'ls::Kolejka' on the left and 'ls::Stos' on the right. A horizontal line connects the two bottom boxes, with a vertical line and an upward-pointing arrow connecting the center of this line to the bottom of the 'ls::Kontener' box, indicating that both 'ls::Kolejka' and 'ls::Stos' inherit from 'ls::Kontener'.

ls::Kolejka

ls::Stos
